

**Declaration for students submitting academic petition to register  
 COOP/Internship/Summer training**

*Note: This form is only for GPA-related cases and must be filled out and submitted along with the petition form, to the registrar's office*

I am the student signed below and I declare that I have read and understand the below:

- My petition form will be kept with the Registrar office until the end of the semester and will be re-assessed once my new grades are available.
- I can apply to the positions from the list provided by training department; however, I understand that my chances are limited due to my low GPA.
- It is recommended that I start immediately looking for my own training position and the training department will provide me with a letter of eligibility. This letter does not mean that I am registered, it is just to help me find a position early enough.
- I need to be sure that I am active in the university and the training course is registered. If I was dropped from the university for any reason I need to get readmission before I can proceed with my registration.
